

We're Hiring!

At GEO Morphix, we are a team of professional geoscientists and environmental experts focused on geomorphology, earth surface processes, and watershed science. Our team specializes in river and shoreline restoration, erosion hazard delineation and mitigation, environmental monitoring and hydrometrics, and projects that require an in-depth understanding of erosion, sedimentation, and sediment transport. Our team of industry leaders provide observation-rich answers based on a balanced application of quality science and years of experience to achieve practical, implementable, and acceptable solutions for all stakeholders. A successful project is one that meets or exceeds our client's objectives.

Given that our team members work throughout southern Ontario, and in the Ottawa region, we offer a hybrid office model that provides flexibility for staff working from home and extends our geographic reach to clients and project work.

Position Description

Environmental Field Technician (Campbellville/Ottawa, ON)

We are currently hiring an Environmental Field Technician to join our dynamic team. The incumbent would work closely with staff on a range of earth and environmental science projects including geomorphological assessments, erosion and hazard studies, and water quality and environmental monitoring. Successful candidates will have excellent inter-personal skills and must be outcome oriented.

Responsibilities

- Ability to work independently and as a team in field data collection
- Provide technical support to staff for data analysis and report preparation for various projects
- Support senior staff to expand field techniques and practices
- Ability to balance the workload of multiple projects while maintaining attention to detail
- Demonstrate exceptional inter-personal skills to work with staff, clients, consulting partners, and permitting agencies
- Maintain records of project work as required
- Collect and organize field data
- Operate and install monitoring equipment
- Use safe work practices and procedures
- Participate in the full range of water monitoring operations, maintenance, and repair duties
- Driving to field sites will be required
- Work in various outdoor working conditions

Qualifications

- Degree in Environmental Science, Geomorphology, Physical Geography or Engineering
- Experience in field data collection techniques including surveying and water quality measurements
- Experience with water quality/quantity monitoring equipment/assets
- Experience with aerial photographic interpretation and map analysis
- Experience with scientific information analysis and interpretation, data management, and technical writing
- Proficiency with Microsoft Office (Outlook, Word, Excel, PowerPoint, Teams)
- Strong problem-solving and critical thinking skills
- Excellent written, verbal, and organizational skills
- Valid G Class driver's license

Rewards

GEO Morphix understands the importance of employee well-being and job satisfaction. Productive and energized staff are the key to a successful company. In support of this goal GEO Morphix offers:

GEO Morphix promotes and provides a friendly and accepting work atmosphere. We are committed to workplace diversity, inclusion, and equal opportunity, and recognize the associated benefits of different perspectives.

We offer a competitive compensation package including: health benefit plan, employer sponsored Group Registered Retirement Savings Plan, and a performance-based bonus program.

We encourage our team to never stop learning. We support professional development in a variety of ways including an employee Professional Development Benefit and a Healthy Living Benefit to promote professional and personal advancement.

GEO Morphix has adopted a hybrid work model. We recognize work-life integration is important.

As a small-medium sized company, we value social and volunteering events and activities.

We thank all applicants for their interest in working at GEO Morphix Ltd. Only those candidates selected for an interview will be contacted. Please send inquiries and resume to opportunities@geomorphix.com

Accessibility

GEO Morphix Ltd. is committed to workplace diversity, inclusion, equal opportunity, and is in compliance with the Accessibility for Ontarians with Disabilities Act and the Ontario Human Rights Code. Accommodations are available on request for candidates taking part in all aspects of the selection process.
